

Quality Council of India (QCI) Launches Pilot Project for Construction Worker Training in Collaboration with SSDF

Glimpses of Pilot Project Work of Training of Construction Workers

In a concerted effort to uplift the lives of construction workers and their families through holistic development initiatives, the Quality Council of India (QCI), an Autonomous Body under the Ministry of Commerce & Industry, Government of India, has initiated a pivotal pilot project for construction worker training. This groundbreaking endeavor aims to empower workers with essential skills while prioritizing their health and safety. The pilot project, executed in collaboration with the Safety Skill Development Foundation (SSDF), focuses on delivering comprehensive training programs that equip construction workers with the competencies required for success in their respective roles. SSDF, renowned for its expertise in skill development and safety training, has deputed its expert trainers to ensure the delivery of high-quality training that aligns with industry standards and best practices. Commencing on April 18, 2024, at GIFT City, Gandhi Nagar, Gujarat, the pilot training project represents a significant step towards enhancing the capabilities well-being of construction workers. Through a combination of theoretical learning and hands-on practical sessions, participants will be equipped with the

knowledge and skills necessary to excel in their professions while prioritizing their health and safety on construction sites.

The collaboration between QCI and SSDF underscores a shared commitment to driving positive change and fostering sustainable development within the construction industry. By investing in the training and empowerment of construction workers, this initiative seeks to create a skilled workforce that not only contributes to the growth of the sector but also enhances the overall socio-economic fabric of the nation. As the pilot project unfolds, QCI and SSDF remain dedicated to evaluating its impact, refining training methodologies, and scaling up initiatives that promote the well-being and prosperity of construction workers across India.
