

RPL TRAINING ON SAFETY EXECUTIVE COURSE AT VENUS STAR

The **Safety Skill Development Foundation (SSDF)**, in collaboration with **Venus Star Construction Pvt. Ltd.**, has launched the **Recognition of Prior Learning (RPL) Training on the Safety Executive Course (NSQF-aligned)** from **7th to 10th October 2025** at **Patna, Bihar**.

This RPL initiative aimed at **recognizing, validating, and certifying the skills and field experience of Safety Professionals** engaged in ensuring workplace safety and compliance across industries. The program provided participants with the opportunity to formalize their existing competencies through structured assessment and evaluation aligned with **National Skills Qualifications Framework (NSQF)** standards.

Key Deliverables:

- 1** Introduction to Occupational Safety, Health, and Environment (OSHE)
- 2** Fire Safety, Firefighting Equipment and Fire Evacuation Plan
- 3** Accident Prevention Methodologies
- 4** Hazard Identification, Categories, and Control
- 5** Pollution & Environment Management, Global Warming, and Sustainability
- 6** Statutes & Legislative Requirements in Health & Safety
- 7** Health, Hygiene, Environment & Psychological Health
- 8** Plan, Organize and Implement Emergency Protocols
- 9** Employability Skills

Through this initiative, SSDF reaffirmed its commitment to **strengthening India's safety ecosystem** by empowering professionals to enhance their career progression, compliance understanding, and leadership in safety management.

The program emphasized the foundation's mission — to build a **safer, skilled, and sustainable workforce**, contributing to national objectives under **Skill India** and advancing a culture of safety excellence at workplaces.

Together, we continue to **recognize skills, reward experience, and reinforce safety**.
