

SSDF-TRIDENT COLLABORATION ON EHS IN TEXTILES AT BARNALA, PUNJAB

Organized by: *Safety Skill Development Foundation (SSDF)*

In Collaboration with: *Trident Group*

Duration: *6th – 9th October 2025*

Location: *Barnala, Punjab*

The **Safety Skill Development Foundation (SSDF)**, in collaboration with **Trident Group**, successfully launched the **Training of Trainers (ToT) on “EHS Essentials for the Textile Sector”** from **6th to 9th October 2025** at Trident’s Barnala facility in Punjab. The program is specially designed for **Supervisors, Maintenance Teams, EHS Officers, and HR Representatives**, focusing on building advanced competencies in **Environment, Health & Safety (EHS)** leadership, regulatory compliance, and sustainable operational practices across textile manufacturing processes.

◆ **Program Highlights:**

A. Global & Organizational Context

- Overview of global textile industry trends, sustainability, and innovation
- Trident’s EHS vision, mission, and safety culture principles

B. Manufacturing Process & Job Roles

- Complete textile manufacturing process from fibre to finished product
- Department-wise EHS responsibilities across operations and support functions

C. Safety Governance & Legal Framework

- Compliance with key Indian and international safety standards (Factories Act, EPA, ISO 45001, ILO, OSHA)
- Safety manual overview, documentation protocols, and audit readiness

D. Process & Job Safety Standards

- Process-specific Safe Operating Procedures (SOPs)
- Machine safety, lockout-tagout (LOTO), permit-to-work systems, and PPE guidelines

E. Hazard & Risk Management

- Identification and mitigation of mechanical, chemical, and fire hazards
- Risk assessment, incident investigation, and continuous improvement practices

Facilitated by **SSDF**, this initiative underscores the shared commitment to fostering a **world-class safety culture** in the textile sector — empowering participants to serve as **EHS ambassadors and mentors** within their organizations. Together, **SSDF and Trident Group** are leading the way toward a **safer, sustainable, and future-ready textile ecosystem** — truly *weaving a safer tomorrow, one skill at a time*.
