

SSDF-TRIDENT COLLABORATION ON EHS IN TEXTILES

Safety Skill Development Foundation (SSDF), in collaboration with **Trident Group**, has launched a **Training of Trainers (ToT) program on Occupational Health, Safety, and Environment (OHSE)** from **22nd to 26th September 2025** at the *Trident Training Centre*; Budhni, Madhya Pradesh

The program brings together **Shift Supervisors, Maintenance Teams, EHS professionals, and HR representatives**, with the aim of strengthening workplace safety culture, ensuring compliance with global standards, and enhancing hazard management capabilities in the textile sector.

✅ **Key Highlights from the beginning of the program:**

- *Global Textile Industry Overview*: Industry trends in sustainability, automation, smart textiles & circular economy.
- *Trident Organizational Overview*: Business areas, EHS vision, mission & safety culture principles.
- *Manufacturing Process & Job Roles*: Complete textile process flow and department-specific safety responsibilities.
- *Safety Governance & Legal Framework*: Policies, PPE guidelines, Indian statutory compliances, and international standards (ISO 45001, ILO, OSHA, REACH).
- *Process & Job Safety Standards*: SOPs across spinning, weaving, dyeing, finishing, warehousing, with emphasis on machine guarding, lockout–tagout, and PPE standards.
- *Hazard & Risk Management*: Identification of mechanical, chemical, ergonomic, fire hazards, risk audits, incident learnings, and safety innovations.

✨ This collaboration marks a major step in aligning **industry best practices** with **skill development and capacity building**, empowering participants to drive safer, smarter, and more sustainable textile operations.

Stay tuned for further updates as the program continues!!!!!!
