

## BUILDING COMPETENCY IN ELECTRICAL SAFETY SUPERVISION: TOT/TOA PROGRAMME

The Training of Trainer (ToT) / Training of Assessor (ToA) programme for Electrical Safety Supervisor - NSQF Level 5, conducted under the PMKVY scheme, has been successfully concluded with focused coverage of electrical safety knowledge and practical competencies.

The programme addressed QP & NOS orientation, job role responsibilities, workplace health and safety concepts, Iceberg Theory, safety audits, process safety, and hierarchy of controls. Key technical areas included PDCA-based safety management, electrical hazards, fire safety, and gas testing fundamentals.

Practical learning was emphasized through hazard identification, risk assessment, implementation of control measures, and safe tool selection, contributing to the development of competent trainers and assessors in electrical safety supervision, aligned with NSQF and industry safety standards.
