

## EMPOWERING TRAINERS & ASSESSORS FOR SAFER CONSTRUCTION WORKSITES UNDER BOCW ACT, 1996

The **Safety and Skill Development Foundation (SSDF)** successfully conducted a **Training of Trainers (ToT)** and **Training of Assessors (ToA)** program under the **Basics of Safety and Health Requirements of BOCW Act 1996** at the **National Academy of Construction (NAC), ASTI–Pulivendula, YSR District**.

The ToT/ToA program focused on strengthening understanding and implementation of the **Building and Other Construction Workers (BOCW) Act, 1996**, with emphasis on statutory safety, health, and welfare provisions at construction worksites. The program covered hazard identification, preventive safety measures, worker registration, welfare benefits, and compliance responsibilities, enabling trainers and assessors to effectively promote **BOCW-aligned safety practices and legal compliance** in the construction sector.

## Key Training Highlights

- Comprehensive coverage of **BOCW Act & Rules, 1996**, including worker registration, welfare schemes, and statutory compliance
- Focus on **on-site safety, health, hygiene, and emergency management** in construction environments
- Hands-on training in **training delivery, session planning, learner engagement, and assessment practices**
- Integration of **health & safety practices, first aid, fire safety, and risk management**
- Emphasis on **professional conduct, ethical practices, stakeholder engagement, and employability skills**

## Outcome

The program reinforced the capacity of trainers and assessors to deliver **safe, compliant, and industry-relevant training** in the construction sector, supporting the objectives of **worker welfare, skill quality, and safety culture** under the BOCW framework.
